

Our Goals, Vision and Purpose

We will offer an initial meeting with each veteran, family member or carer to establish the kind of help that would be most appropriate for each case.

The Wellbeing Group

We will offer a Wellbeing Course to help veterans and families to develop better awareness and ways to help individuals to stay well and live fulfilling lives.

We also hope that in time you will want to become a peer to peer specialist.

Workforce Development

We are working with our staff to ensure our workforce is aware of military culture, its structure, experiences, and issues that present difficulties to the community such as (PTSD), alcohol misuse, and concerns about accessing services.
